## Coffral Gondola (Suspended Platforms)

**Suspended Platforms**, or commonly known as Gondolas, are access platforms for one or more workers with motor-driven devices to be raised and lowered by ropes. These platforms play a very important role in the maintenance of structures, and they allow workers to clean the windows of high-rise buildings. Coffral offers the best quality equipment and highly competent individuals to meet your project requirements.

**Note:** Only Coffral Certified Operators can be in charge of the installation and relocation.

# Coffral Gondola (Suspended platforms)

## KEY DEFINITIONS

**Gondola** – also referred to as a suspended platform, swing stage, or suspended scaffolding. This is a temporary platform suspended from the roof of a structure, which is a stable, strong and reliable modular system.

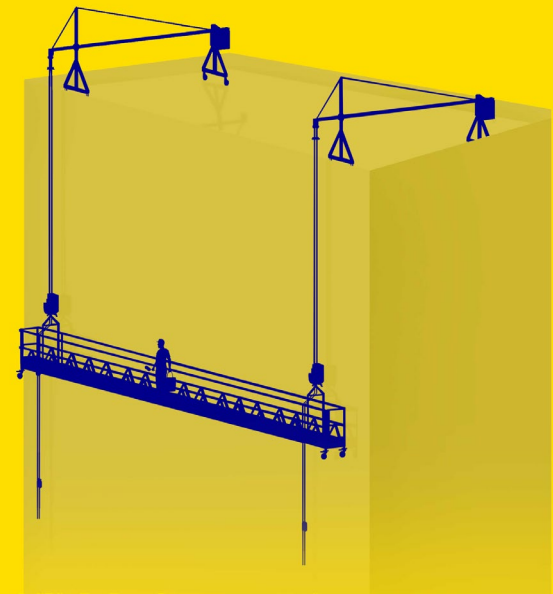

**Gondola  
(Suspended platforms)**

# Coffral Gondola (Suspended platforms)

- Modular Aluminum Platform
- Rooftop Beam
- Electrical Hoist and Cables

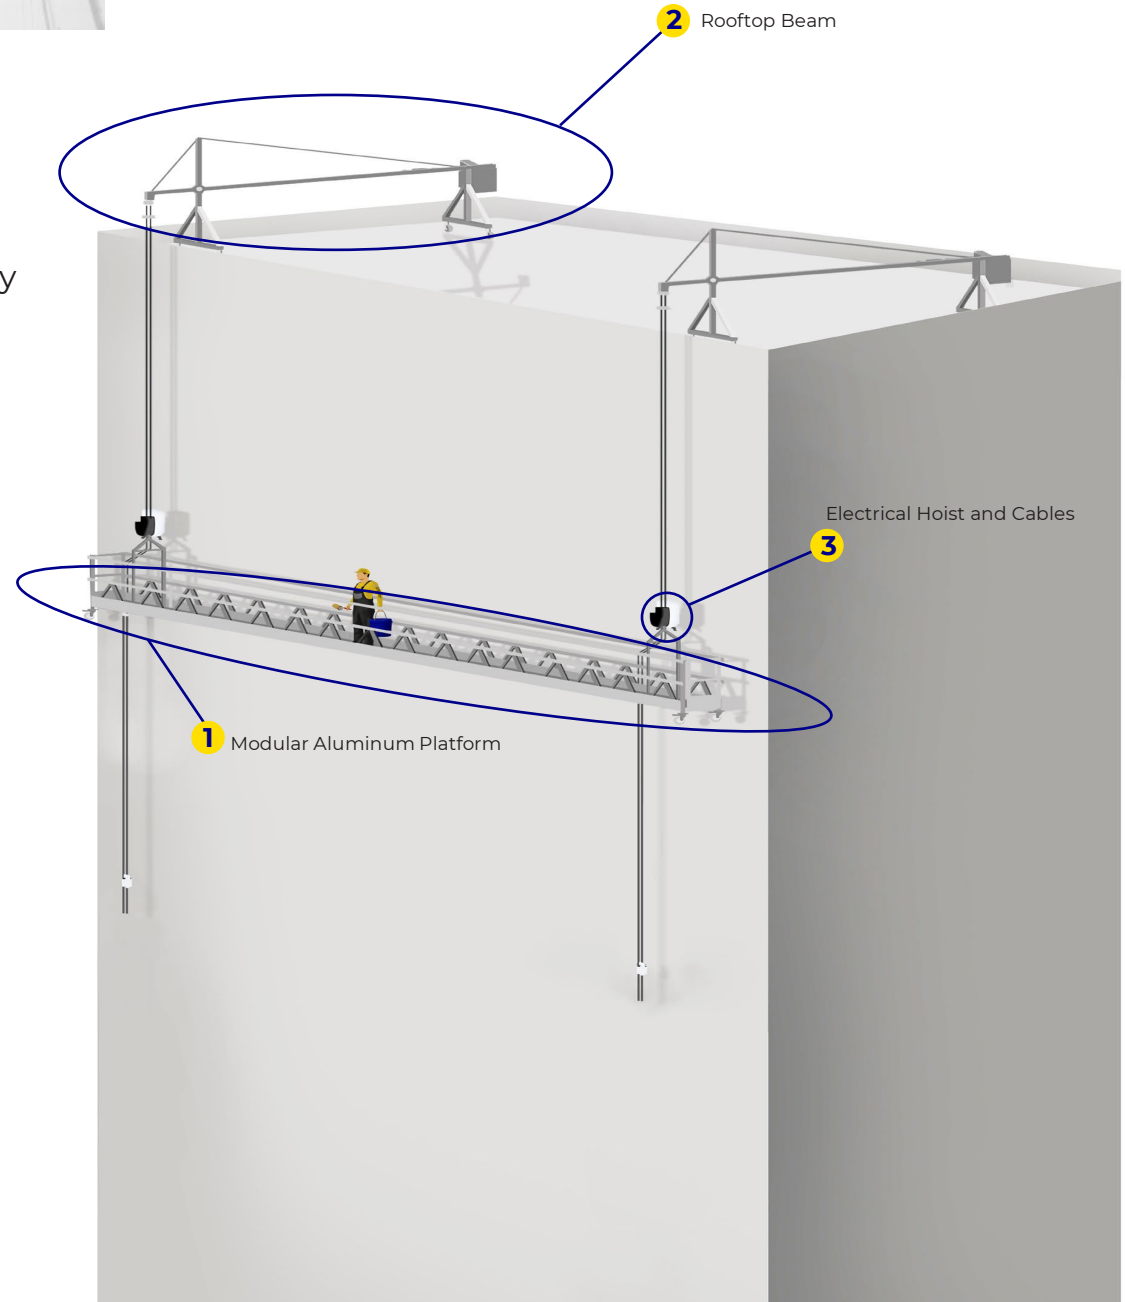

# Gondola Overview

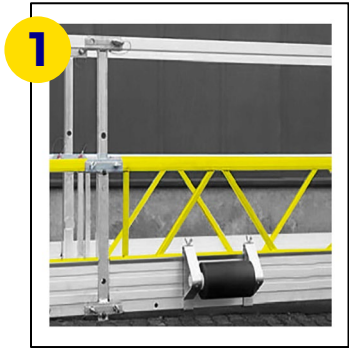

Gondolas are the best solution for external work at heights, specifically on jobs like external wall plastering, installing glass facades, painting, cleaning, and a lot more. It's easy to use, efficient, and has the most advanced safety parameters.

These are the 3 main parts of the **GONDOLA**

- 1 Modular Aluminum Platform
- 2 Rooftop Beam
- 3 Electrical Hoist and Cables

# Modular Aluminum Platform

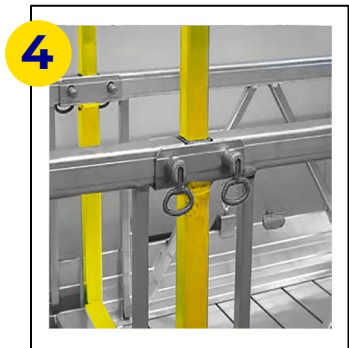

**Side Frame**

**Aluminum deck**

**Guardrail**

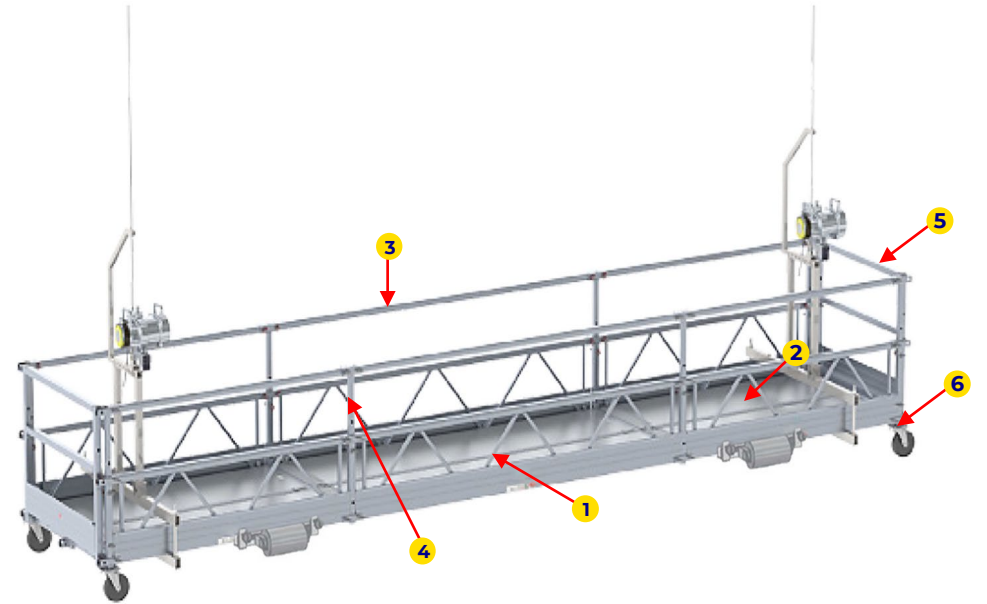

**U-Frame**

**End-Stirrup**

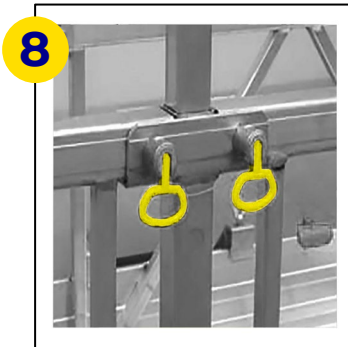

**Caster Wheel  
with Break**
